Travelport
REDEFINING TRAVEL COMMERCE

With the existing functionality – GALSTAR includes airline content from Galileo Web Services (GWS)

LCC (IndiGo Airlines, Go Air, & Spice Jet)-LCC Bookings can be done through Direct API integration in the GALSTAR or with clients multiple LCC WEB Id,s

Red bus API can be integrated in the GALSATR to book bus Tickets

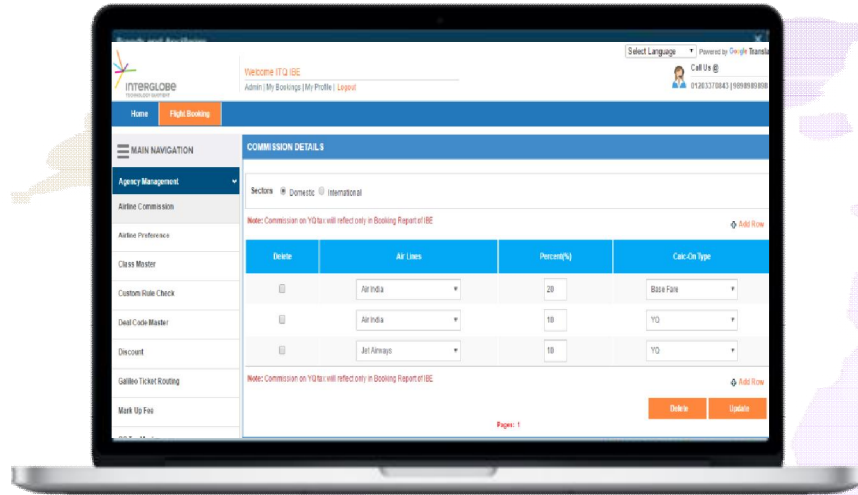

Bank Payment Gateways can also be integrated to collect the payment through Credit card & Debit Card

ITQ Financial backhand accounting package can be integrated .

booking Hotels through Galileo Hotel content through Room Master and Travelport Rooms & more.

Implementation

Easy implementation process

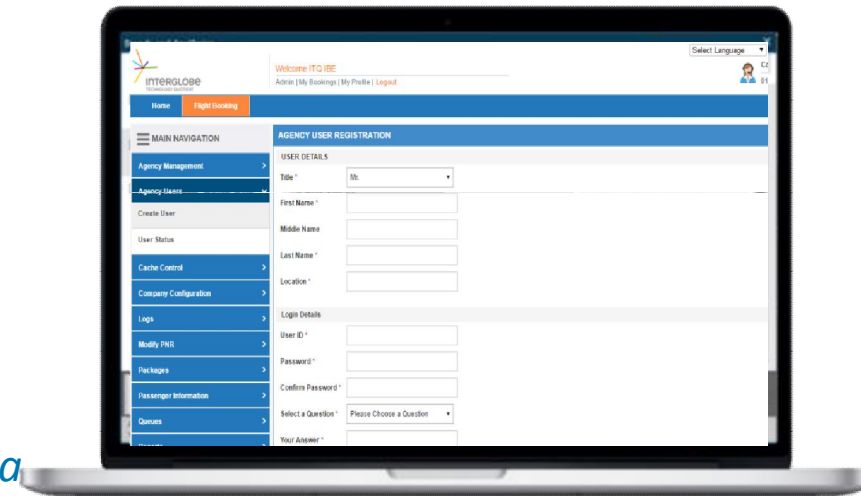

The Tool is based on “**Do-It-Yourself**” concept

An integrated online Booking Engine , managing Sub-agencies, users and their end to end booking Flow with MIS reports

Ease of implementation –

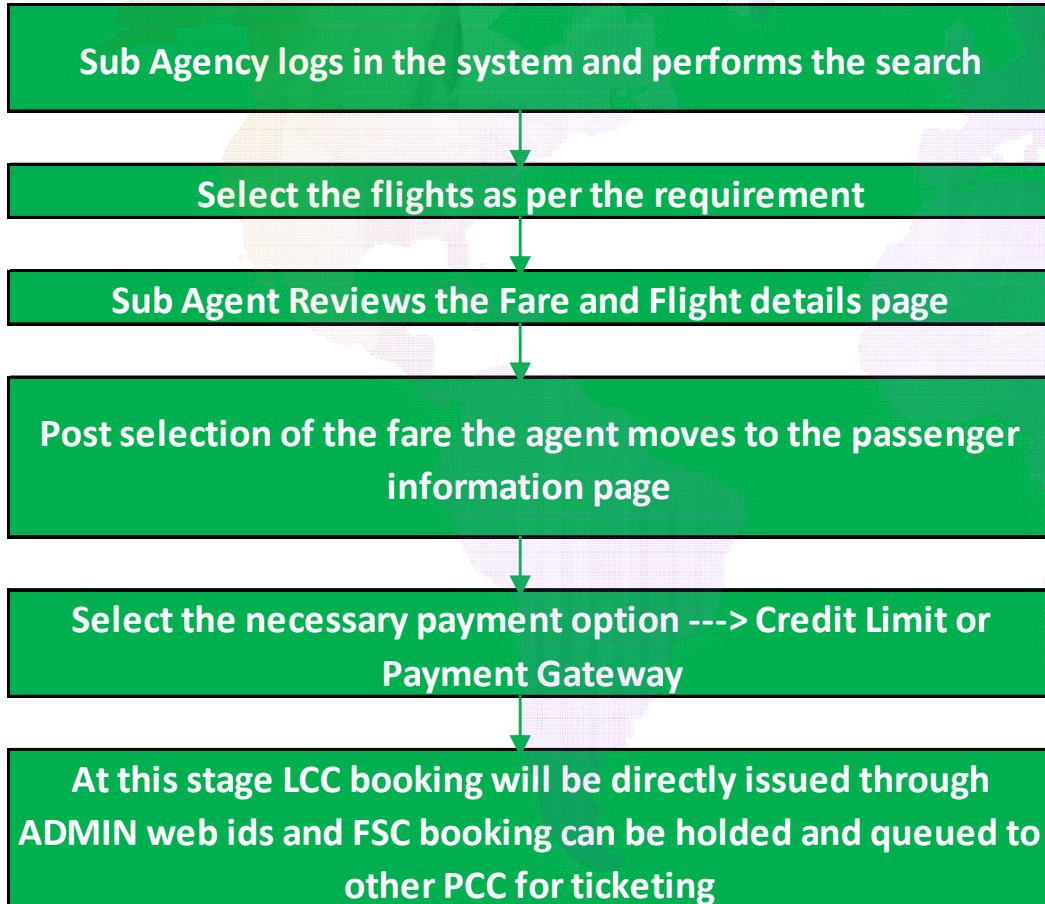

- *Permission based Agency Rights – to allow / restrict certain sections*
- *Single URL to control both B2C and B2B users*
- *Look To Book Logs captured in the reports-Admin can keep a track on all users L2B.*

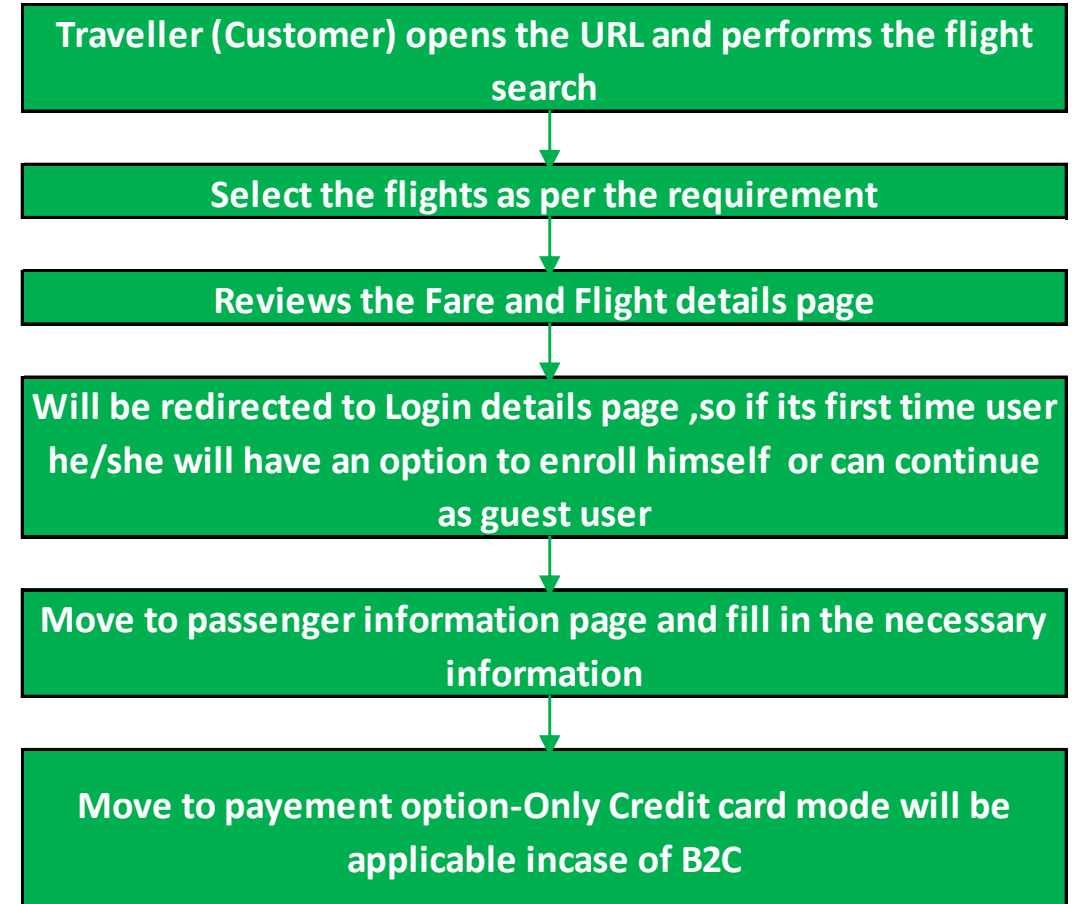

Booking flow

B2B / B2C

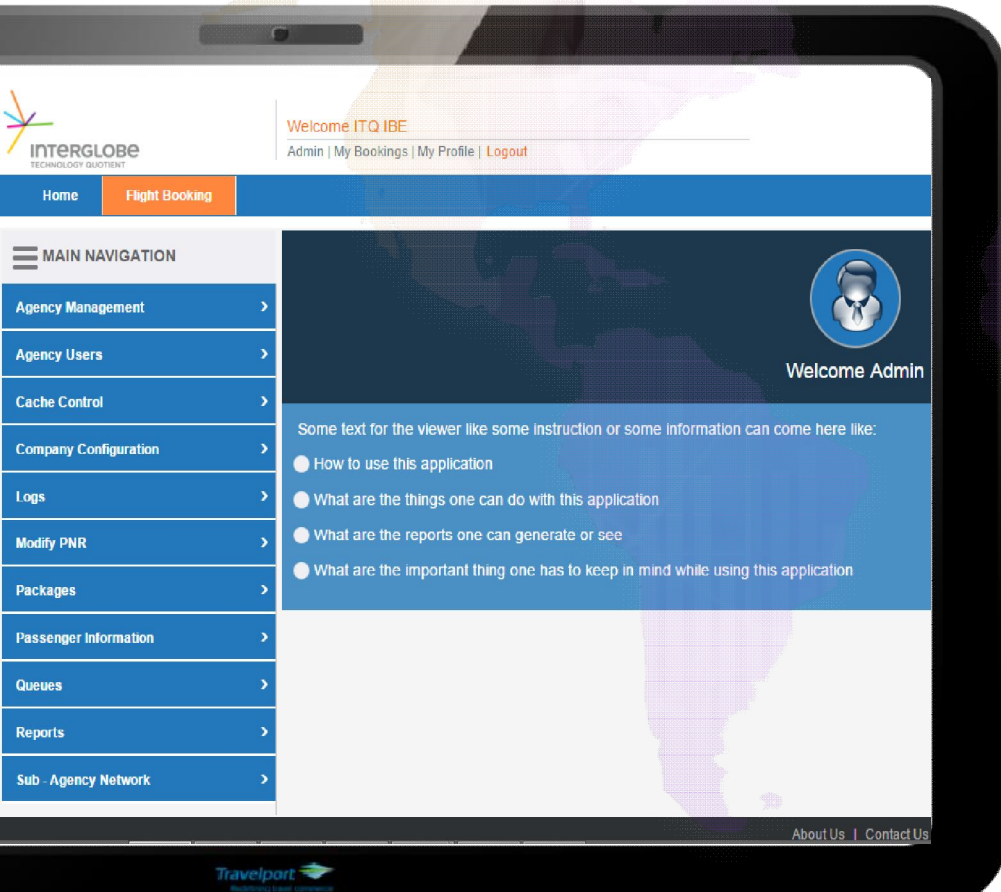

B2B Booking Flow

B2C Booking Flow

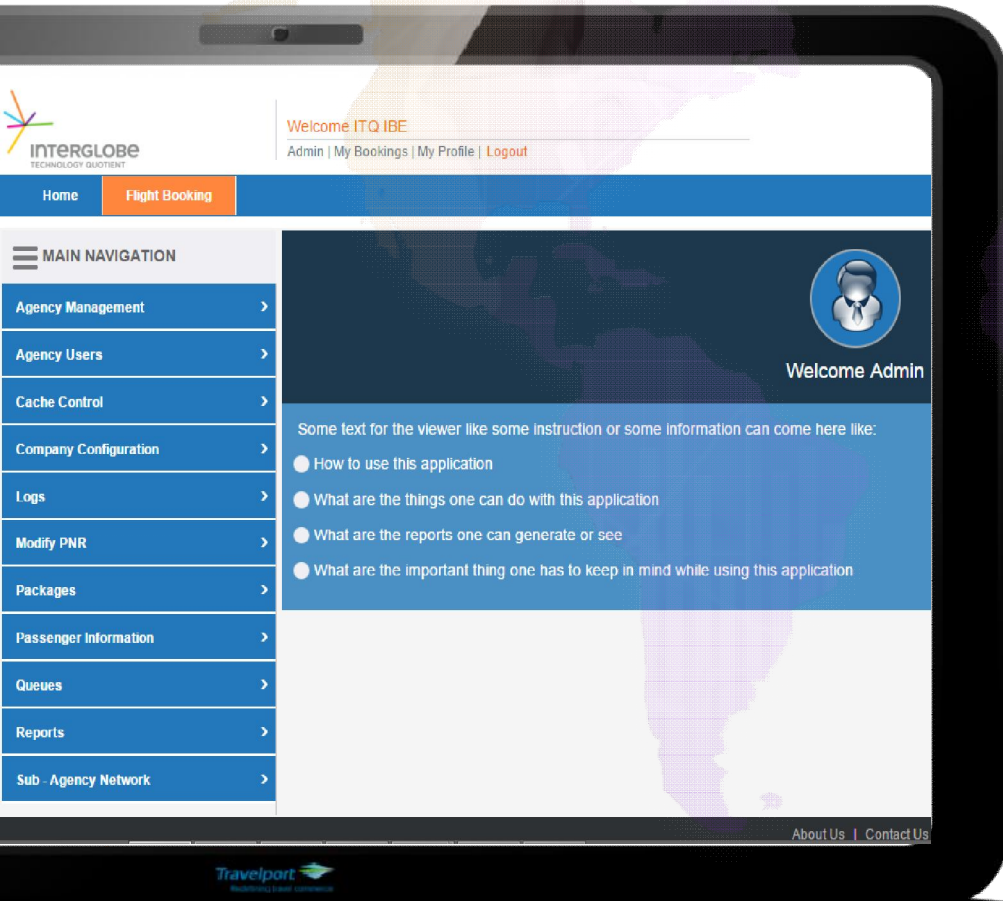

Onboarding

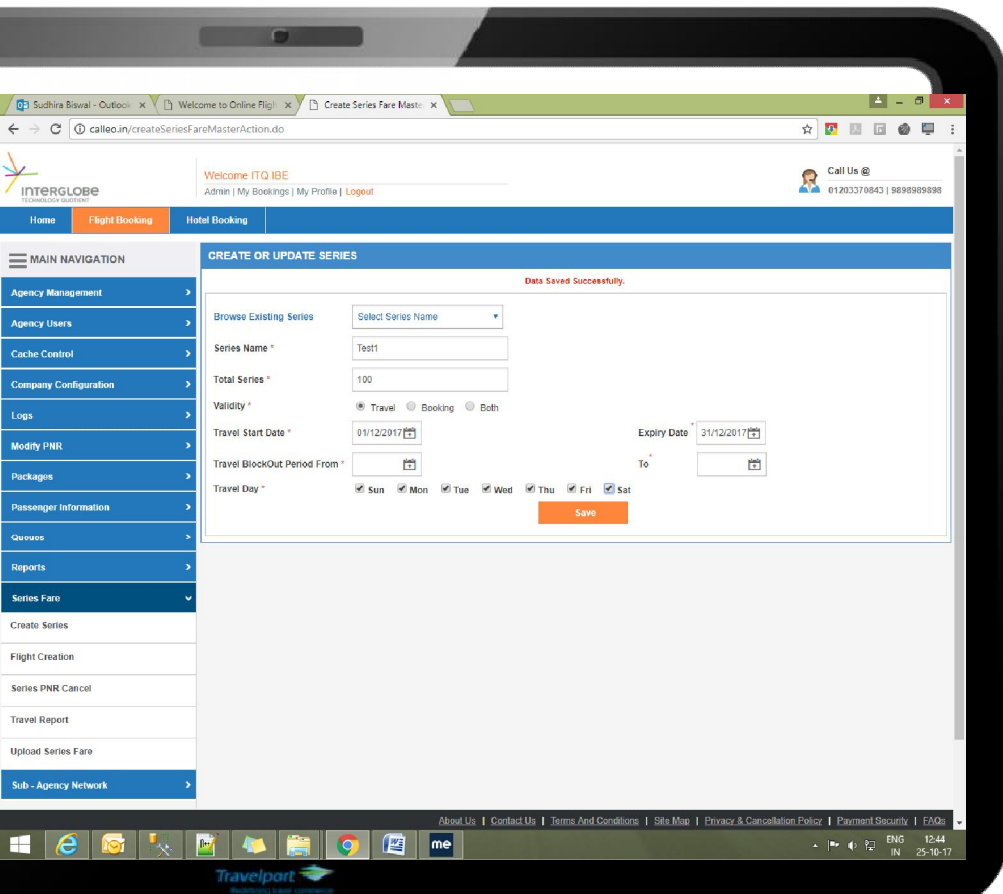

- Self registration by the User, Sub Agency and Walk in client on the tool
- ADMIN Own Galileo PCC and LCC(GO, Indigo & Spicejet Web id) will be used to make all bookings, this way you will not lose out onto your own segment generation.
- Within 4 easy steps you. Your staff and your registered client can create booking in less than 2 minutes.
- All fares displayed on Booking engine will be real time and can be booked also.
- You can create Multi channel of sub agencies login onto your portal without redirecting them to any 3rd party consolidator .
- On Single window you are able to see all Full service and 3 LCC Fares and flight Option

Onboarding

- Comprehensive and user friendly admin tool for controlling the day to day operations
- Seamless API support for third party integrations also Customer profile management Improved productivity and reduced cost
- Commission Management for various sales channels
- Four step booking process
- Queue Management
- Comprehensive Accounting system
- MIS Report
- Option to HOLD or ISSUE TICKET

Series fare Module

- Add/Remove Series Fare Search Option in Search Flight UI
- Remove Series Fare
